

GIS TECHNICIAN

The Company
Augusta Gold is an exploration and development company with a well-positioned land package in the prolific Bullfrog district located in Nevada, USA. With a historical gold resource estimate the Company is advancing development of the asset with a focus on cost effective and environmentally responsible construction. There is potential for new discoveries on its largely underexplored land package of approximately 7,800 acres. The Company is led by a management team and board of directors with a proven track record of success in financing and developing mining assets and delivering shareholder value.
The Opportunity
We are currently seeking an experienced Contract GIS Technician to support our exploration team as they ramp up a drilling program. The work you will do includes using scanning technology along with GIS and other spatial software to manage, expand and improve our data set and produce high-quality maps, etc., for the exploration team. You are detail oriented and strive to produce accurate high-quality maps and sections to enable your team members to accurately plan drilling and present information to the executive team.
Desired Education and Experience
<ul style="list-style-type: none">• A Bachelor's degree in the earth sciences, or equivalent is required, and preference will be given to those with some amount of GIS coursework and/or experience.• Must possess and maintain a valid US driver's license as a condition of employment.• Ability to routinely lift 50lb objects throughout the day.• Ability to understand and adhere to written and verbal policies and procedures.• Fluent in spoken and written English• Technical writing skills• Demonstrated competence with MS Office Suite of programs
Location
Beatty, Nevada
